

Working with String Methods and Arrays Operations

DIY - 1

edureka!

Q1. console.log “slice” from the string “Let’s slice this string.”

The expected output is shown below.

Q2. Replace the text “dummy” with the string “Today is a dummy day.”

The expected output is shown below.

Q3. Capitalize the text “Today is a great day.”

The expected output is shown below.

Q4. Concatenate the string “ Welcome to Veranda.” after the string “Today is a great day.”

The expected output is shown below.

Q5. Trim the text “Lorem ipsum dolor, sit amet consectetur Repudiandae, et nesciunt!”

The expected output is shown below.

Q6. Apply the push, pop, shift and unshift methods on the given array where let arr = [1,2,3];.

The expected output is shown below.

Q7. Apply map, push, foreach methods to get the following output using the given data.

```
let arr2 = [  
  
  {
