

## DOM Operations

---

### DIY - 21

**edureka!**

## Problem Statement 1:

Create the webpage using JavaScript CRUD operations on DOM.

The expected output is shown below.

<b>Name: Rahul</b> Employee Id: 3567 <b>Address:</b> City Name: Vijayawada District: Krishna district pin: 526894 <b>Hobbies:</b> Netflix, Tennis, Coding.	<b>Name: Ravi</b> Employee Id: 9867 <b>Address:</b> City Name: Guntur District: Prakasham district Pin: 685479 <b>Hobbies:</b> Reading, Swimming, Baking.	<b>Name: Santosh</b> Employee Id: 8876 <b>Address:</b> City Name: Warangal District: Hanamkonda district Pin: 996587 <b>Hobbies:</b> Gym, Reading Novels.	<b>Name: Surya</b> Employee Id: 3469 <b>Address:</b> City: Nazamabad District: Nazamabad district Pin: 648597 <b>Hobbies:</b> Badminton, E-Sports, Netflix.	<b>Name: Kiran</b> Employee Id: 8864 <b>Address:</b> city: Kakinada district: Kakinada district pin: 660954 <b>Hobbies:</b> Gaming, Cooking, Music.
